Van Buskirk questioned as to whether there were any responses to the adjoining property notices sent out. Petrunich read the responses to the adjoining

property notices. Van Buskirk opened the discussion to the audience:

Roger Rose – opposed, lives on Cedar Mountain, citing sonic booms from government jets may have caused landslide several years ago and concerned blasting could cause landslide to happen again, jeopardizing homes.

Mrs. Oliver – opposed, concerned about safety of the children (trucks speeding up and down the roads), farms and people who have been there for years.

Denise Rudder – opposed, don't ruin a beautiful community for a small amount of money for the county, compatibility of use, after quarry could be a nuclear plant.

Mark Wert – opposed, appreciate the advance notice, citing the area is residential and agricultural, is not compatible to I-1, Industrial, concerned it will disrupt lives of residents in this area. The majority of people in whole sixth district are against it. Nothing against Tinsley's, just want it to go somewhere else where is it more compatible with the area.

Charles Oliver – The residents own up to the middle of the road, the road was just put there, nobody signed the papers for putting the road down there. Water is going to be ruined, who's going to be the responsible party, somebody is going to be sued.

Mark West – posed questions on reclamation plan.

Dave Van Buskirk stated it would be heard by the Board of Zoning Appeals.

Jay Ballard – opposed, citing bad roads, sharp curves, will be bad wrecks, university has bike riders on the road, Nissan workers fly down the road.

Dale Crabtree – opposed, concerned about property values going down.

Paul Hill – opposed, concerned about property value going down below mortgage owed on house.

Virginia Hill – opposed, wanted commission to know that they fought this before Tinsley purchased the property.

Mark Wert – appreciate board hearing people out.

John Woodall described prescriptive Right-of-Ways, areas designated to the county for road travel. Woodall offered that all quarries have to meet State and Federal requirements, water is monitored by the State, blasting has to be monitored, a person comes to the site and there is control blasting much different than it used to be. Dave Van Buskirk offered that a feasibility study had been requested and that CTAS would be providing that study to the county. Michael Rudder offered that the proposal contradicted what our zoning states and read portions of the intents for the R-1, Single Family Residential and A-1, Light Agricultural zoned districts from the Zoning Resolution. John Woodall offered that in regards to roadways, Tinsley would have to sign a contract with the county for road maintenance. John Woodall made a motion to recommend the rezoning as requested from A, Agricultural to I-1, Industrial District, Special to the County Commission for approval, based upon the recommendation of the Staff Report with the following recommendation:

1. The various issues such as noise, traffic safety, and effects of blasting should be discussed and documented.

Greg Houston seconded the motion. The vote was three ayes, and two nays. Jeremy Price abstained from voting.

No Old Business was discussed.

The meeting adjourned at 7:11PM by Chairman Dave Van Buskirk.

Franklin County REC/PAV Dept.

3rd Quarter Report FY 2018-2019

- New sand has been applied to the volleyball court and beach at Dry Creek. New volleyball nets are on order and will be installed once they arrive. We applied for a \$20,000-dollar grant from TN Department of Health for a smaller pavilion to be built along with a small playground similar to the one behind the annex building. Our match will be in-kind labor and equipment to build and install the new capital. We hope to hear back on this grant soon.
- The Dry Creek Beach will open May 24th for the season and is gorgeous for those who have not seen it in a few years.
- Metal inside the Southern Middle TN Agriculture Pavilion is $\frac{3}{4}$ of the way installed with an expected completion date of May 1st.
- The budget minus salaries for this fund has been exhausted for the year. The majority of funds expended going to refurbish the extremely neglected Southern TN Agriculture Pav. If you have not visited it in awhile then you are missing out on a very positive example of tax payers' dollars being used for maintenance and upkeep of a building that is literally being brought back to life as a useful county property. Bradley Crabtree a supervisor with-in the Solid Waste Management Department has been heading up the refurbishing project using county employees and inmate labor to save tremendous construction costs. Melissa Woodall has been the key person scheduling use of the pavilion almost daily since the first of the year, which will no doubt help to offset some of the cost of operation.

Very Respectfully,

FC REC/PAV Director: William Anderson

Franklin County Solid Waste

3rd Quarter Report FY 2018-2019

- We applied for and received three grants from the TN Department of Environment and Conservation this year. All total the grant amounts added up to \$75,000 with our match being around \$28,000. With this grant money we will purchase more cardboard recycling bins and completely re-do the Winchester Springs Convenience center with new equipment, fencing, pavement, and a self-contained compactor.
- A few weeks ago, the Solid Waste Board and the Mayor met with leaders at TDEC and vetted our future Solid Waste to Energy goal. The leaders proclaimed their support and the need for such a facility but also claimed that their mission was to financially support recycling and composting efforts state wide. We left the meeting with their good wishes and handshakes toward our endeavor of making Franklin County, waste independent in the future but with no intent of financial support from the Solid Waste division of TDEC. We were advised to reach out to the energy division of TDEC to inquire if they would have any funding to help us achieve our goal. That meeting will be coming soon.

In the future we will be conducting town-hall style meetings with Franklin Countians and give our citizens an opportunity to voice their support or concern for the way forward of waste disposal in our county. I am in contact with officials from the Huntsville waste to energy facility routinely learning lessons and contacts to help see our path forward in this endeavor. More to follow soon!!!

- Recycling commodities pricing is worth half the value it was for the same material this time last year. This will cause a \$60,000 to \$70,000-dollar shortfall in revenues coming into the solid waste fund for this FY. China rejecting US recycling goods at the ports has caused this flooding of the market of material and the decrease in value. No end in sight is forecasted for the near future of a recovery of the commodities pricing.
- Budget is attached and shows the department operating where it should be for this time of the year. I don't anticipate any issues finishing out the FY.

Very Respectfully,

FCSW Director: William Anderson

Franklin County Community Reentry Report January 2, 2019 – March 31, 2019

Franklin County Community Reentry thanks the Franklin County Commission for the opportunity to serve citizens incarcerated in Franklin County Jail. The services provided during this quarter has led to the following results.

Number served - 30 individuals

Number still incarcerated after programming - 15

Number released from jail - 15

Number receiving in-house long term aftercare treatment - 2

Number of clients placed in full time employment - 6

Number of clients in part-time employment - 2

Reentry clients placed in employment this quarter earned a total weekly wage of \$3,460.00. If these individuals maintain employment for 52 weeks, the total annual wages earned will be \$179,920.00 dollars. Reentry pays in saving dollars and at the same time saving lives.

As a result of the services provided by the full-time Mental Health/Substance Abuse Counselor hired by the County January 22, 2019, more individuals are receiving present and aftercare treatment to address the underlying problems that have contributed to the cycle of criminal behavior and high recidivism rate of the jail. This has been a major addition to the Reentry program in Franklin County.

Furthermore, a new program called Victim Impact has been added to reentry services to emphasize personal accountability. We are looking forward to serving more individuals thereby continuing to reduce recidivism and promoting safer communities.

See attached success story.

Respectfully Submitted,

Christine Hopkins
Christine Hopkins, Executive Director

Client Success Story

At first I was apprehensive coming into reentry programming. Before coming into the program I had been incarcerated approximately thirty times for various charges that all stemmed from my drinking problem. I started classes on February 11, 2019. The victim impact curriculum made me stop and think that all of these times I've been coming to jail had a huge impact on my wife, mother, my son and the community as a whole. I've never been one to talk to strangers about my addictions. The Alcohol and Drug counseling was one of the biggest impacts on my thinking and behaviors. MRT helped me to notice my triggers and the healthiest ways to avoid them. The staff always took time to work with each individual, to help each of us with our specific obstacles, encouraging us but holding us always accountable. The job readiness course work and the practice interviews greatly helped me be prepared to enter the work force. The ability to interview while I was incarcerated and land a job offer while in class took a large strain off my planning for when I was released from jail.

Since my release, I have been employed full time, providing for my family. I have completed my public service hours with probation and I have been going to twelve step A/D classes that are my choice, not court ordered. I am staying in touch with all reentry staff since being released from jail. For the first time in a long time, I feel good about myself and the direction my life is now going. I am forever thankful to Ms. Christine and her staff for all they do.

Work Plan for Franklin County 2019-2020

Franklin County proposes to utilize prisoners housed in the county jail to collect litter and trash along County and State roads within the County's boundaries. The prisoners will be transported to and from work by means of a covered truck. During transport, a guard will be present in order to provide necessary security and oversight of prisoners during work periods away from the jail. No prisoners involved in roadside litter pick-up activities will have a felony conviction.

It is proposed that litter and trash collection will take place five (5) days a week using an area rotation system. The rotation will accomplish two things: 1) It prevents an excessive build-up of litter in any area, and 2) It prevents the possibility of transporting prisoners to a recently cleaned area where inmate labor would be less efficient and effective.

Any illegal dumps along roadsides will be cleaned up. These will also be reported in detail on all monthly progress reports submitted to TDOT.

All litter workers, guards, drivers or prisoners will be required to wear safety vests at all times while working on or near a roadway. Work gloves, litter bags, and tools will be used for the purpose of litter collection. County personnel will ensure that a first-aid kit and adequate drinking water will be present at each worksite. Lunches will be provided to all prisoners who participate in the litter collection of the Litter Grant Program.

Specific roads covered for litter collection, pounds of litter collected, and other pertinent information will be reported and submitted in the required monthly report to TDOT.

Education Plan for Franklin County 2019-2020

Franklin County will target 4 areas for this year's litter education.

Student Education

Franklin County intends on entering the school system targeting the 2nd grade age group to discuss the importance of stopping the litter cycle and recycling. Along with the 2nd graders, Educational talks will be directed towards older children in the Junior Cadet Program affiliated with the Franklin County Sheriff's Office to discuss the State Laws regarding litter. A deputy will accompany the Educational Coordinator to help reinforce these laws. Bulletin board and poster contests are intended this next fiscal year along with prizes to the best school that promotes litter clean up.

Public Education

Franklin County Solid Waste will hold a Hazardous Waste Event that will include the Education Coordinator and the "Tarp It or Ticket" campaign. Franklin County plans on putting the logo for TDOT on at least one of our main billboards in town. Franklin County will also set up a booth at the county fair to promote the campaign as well as recycling.

Media Education

Franklin County has always participated in local morning talk shows on WCDT and WZYX Radio Stations discussing litter, laws, and upcoming activities. This year Franklin County will expand by reaching out the citizens at the local theater and drive in with campaign ads. Along with radio and theater, we plan on setting up a Facebook page.

Government Education

Franklin County plans on partnering with Tim's Ford State Park during their summer youth events to speak to groups on the importance of keeping our county clean. Education Coordinator plans on enhancing existing bulletin boards in county buildings to include the campaign logo, recycling tips, and litter information.
